

Press Release:

American Boer Goat Association recently conducted a review of user access to and activity on its “ABGA Online” and ABGA Online Premium” databases (the “Databases”). The investigation did not reveal any compromise to the integrity of the information residing on the Databases. However, the investigation did reveal a need for American Boer Goat Association to revise and update its policies and security measures regarding access to and use of the Databases and any information residing thereon. Anticipated changes may include revisions to the American Boer Goat Association website’s “Data Access and Use” restrictions, and the denial or limitation of future access to the Databases by certain third party users. We will keep you informed as these changes take effect. If you have any questions, then please contact Sandy Smith, ABGA Office Manager at (325) 486-2242.
