Excerpt from Rule 1400, L

L. Acceptable Practices and Substances

No person shall conspire with another person or persons to intentionally violate, or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate any part of these Rules & Regulations.

i. Permitted Practices and Substances

- a. Drenches as needed, and as directed on the label, for animal health and well-being.
- b. Drugs and other substances labeled for use in goats to treat health issues in an exhibited goat. Any extra-label usage requires a prescription, or statement for use from the attending veterinarian.
- c. *Grooming products that are not restricted from use in meat producing animals, including: brushes, combs, clippers, hoof trimmers, shampoos, conditioners, oils, mousse, alcohol/liniment, sprays, powder, and artificial coloring that enhances the goat's natural color.*

ii. Conditionally Permitted Practices and Substances

- a. Therapeutic medications given for the legitimate treatment of illness or injury are permitted if ALL of the following conditions are met:
 - i. A completed medication report on file with show management before exhibiting the animal, which must include:
 - (a) Diagnosis of illness/injury, reason for administration, and name of administering and/or prescribing veterinarian.
 - (b) Signature of veterinarian or person administering the medication. If prescribed by written instructions, a copy must be attached to the medication report.
 - (c) Identification of the medicine; the name, amount, strength and mode of administration.
 - (d) Date and time of administration.
 - (e) Identification of the animal: ABGA registration number, permanent identification (tattoo), age, sex.
 - ii. The animal must be withdrawn and kept out of competition for not less than 24 hours after the medication is administered.
 - iii. The medication report must be filed with show management within one hour of administration of the medication or one hour after show management is available, if administration occurs at a time other than during competition hours.
 - iv. The medication report must be signed by show management and the time of receipt recorded on the report.

iii. Prohibited Practices and Substances

- a. Injection or external or internal administration via any orifice of any substance (including drugs, chemicals, and any other forms of products) prohibited from use in meat producing animals by the Food and Drug Administration (FDA), the U.S. Department of Agriculture (USDA), and/or any Federal, State or Local Law.
- b. Extra-label use of any drug or substance approved for use on meat producing animals, but not approved for use in goats (even though commonly used in goats) while on the show premises.
- c. Injection or external or internal administration via any orifice of any allowed substance in any way that is inconsistent with the dosage and the route prescribed by the manufacturer or prescribing veterinarian.
- d. Administration of any quantity of any diuretic, growth stimulant, or performance enhancing drug.
- e. Filling and/or tubing of an animal.
- f. Presenting any animal whose natural conformation and structure have been surgically altered in any way, with the exception of:
 - i. Removal of horns; and/or
 - ii. Removal in testicles in the case of wethers.
- g. Using any inhumane or unethical treatments, including striking animals, using electrical contrivance, or other similar methods.
- h. *Artificial coloring that alters the natural color of a goat.*
- i. Attaching any objects, including hair or hair substitutes, cloth, or fiber to the animal for the purpose of deception.
- j. Injection or external or internal administration via any orifice of any substance, whether gas, solid, or liquid, not conducive to continued animal health or marketability.
- k. Tissue or fluid manipulation, removal, surgical attachment or otherwise to change, conceal, enhance, or transform the true conformation or configuration of the animal.
- l. Administering any substance that artificially induces lactation.
- m. Any substance, regardless of how harmless or innocuous it might be, which might interfere with the detection or quantization of any substance prohibited by ABGA.
